ABOUT STARGAZY:

Our fish is sustainably sourced - the Marine Stewardship Council mark means the fisheries are meeting robust requirements: only fishing at a level which can continue indefinitely; and reducing the impact on the marine ecosystem.

We simply believe in quality. If we can source a top quality product locally, then that is our 1st choice. So, our salad leaves are grown 2 miles away, our frankfurters hail from Lydney Park Estate and our pies are made in Nailsworth.

However, we also like to make as much as possible in-house, so our secret batter recipe uses a blend of Shipton Mill flour and Cotswold Brew Co Premium Lager. The fishcakes, goujons, chilli and curry sauce and mushy peas are all tenderly made onsite.

The variety of potatoes that we use for our chips changes depending on seasonality and how good they taste!

TO GET THE BEST OUT OF YOUR STARGAZY EXPERIENCE...

We don't start cooking until we have received your order, so our top tip is:

Either ring us with your order on 01666 500690 and let us know what time you would like to pick your food up.

Or: come along and place your order at the fish bar - if we are not busy, you might wait less than 10 minutes.

If it is a peak time, you can go to The Priory Inn for a drink and we'll let you know when it is all cooked and ready to go...or you can eat in the fish bar (or garden) and watch the world go by.
